## EDUCATION

- Kalinga Institute of Industrial Technology, Bhubaneswar** Bhubaneswar, India  
*Bachelor of Technology - Computer Science and Systems Engineering ;CGPA: 8.81* Sept. 2020 - May 2024

## SKILLS SUMMARY

- Languages:** C/C++, Python, JAVA, SQL, HTML, CSS, JavaScript
- Tools & Frameworks:** Selenium WebDriver, TestNG, Postman, JIRA, SoapUI, Maven, Git, Android Studio, IntelliJ, Visual Studio Code, Jupyter Notebook, Google Colab, Salesforce Playground, Botpress, Canva
- GenAI Tools:** Github Copilot (for test scenario generation, code optimization), ChatGPT (for defect pattern analysis)
- Soft Skills:** Ownership, Problem Solving, Collaboration, Time Management, Proactive, Creative Thinking, Leadership, Problem Solving, Work Ethic

## EXPERIENCE

- QA Engineer at Coforge** Noida, India  
*COSYS+ Project and Cathay WOS Project – Airport Cargo Management System (SATS)* June 2024 – Present
  - Architected enterprise test strategies achieving 99.9% system reliability across 15+ production releases with 100% API endpoint coverage.
  - Implemented Selenium WebDriver automation reducing manual testing effort by 40% and accelerating release cycles by 2 days per sprint.
  - Led JIRA defect lifecycle management, resolving 150+ production issues with less than 48-hour average resolution time.
  - Conducted deployment validation and Agile Scrum ceremonies ensuring production stability across staging and production environments.
- Data Science intern at Blu Cucoon Digital** Kolkata, India  
*Project intern & Learner, [Letter of Recommendation](#)* June 2023-August 2023
  - Data collection and annotation using Makesense and LabelImg.
  - Applied image processing models, Yolo V5, Yolo V8 and YoloX for plant disease recognition and analysis.
  - Used Time Series Algorithms such as LSTM on historical data to forecast the future sales of the products.
  - Performed NPK analysis of soil using Multiple Linear Regression.
- Salesforce Developer Virtual Internship** Remote  
*Intern & Learner* May 2023-July 2023
  - Completed modules on Salesforce Fundamentals, Organizational Setup and Relationship & Process Automation
  - Implemented various types Of Flows & Security Protocols, Apex Code, Testing & Debugging
  - Completed VS Code Setup & CLI Setup, developed Lightning Web Components (LWC) & APIs

## PROJECTS

- Full Stack Grocery Management :** The Full Stack Grocery Management Application offers efficient inventory management, dynamic user interface, integrated chatbot, and personalized food recommendations, developed collaboratively for modern grocery needs. [Github](#)
- Virtual Mouse:** This personal project utilizes MediaPipe and OpenCV for real-time hand tracking and gesture recognition, enabling seamless mouse control via Win32api and PyAutoGUI. [Github](#)
- Unit Converter:** A web based Unit Converter using HTML,CSS and JavaScript. [Github](#)
- Digital Clock with Timer and Stopwatch:** A web based Digital Clock with Stopwatch and Timer using HTML,CSS and JavaScript. [Github](#)
- Captcha Generator:** A Python and flask based Website for Captcha generation. [Github](#)

## RESEARCH PAPERS

- Enhanced Communication by using Sign Language Recognition ([Paper Review](#))
- Stock Market Prediction Analysis using LSTM ([Paper Review](#))

## CERTIFICATIONS & ACHIEVEMENTS

- Salesforce Certificate: [Salesforce Developer Virtual Internship](#)
- AICTE Certificate: [AWS Cloud Virtual Internship](#)
- AWS Academy Graduate: [Cloud Semester 1](#), [AWS Academy Cloud Foundations](#), [AWS Academy Cloud Architecting](#)
- IBM Certifications: [Artificial Intelligence Fundamentals](#)
- Coursera Certifications: [Technical Support Fundamentals](#), [Google Cloud Big Data and Machine Learning Fundamentals](#), [Project Initiation: Starting a Successful Project](#), [Project Planning: Putting It All Together](#), [Basic Statistics](#)
- [HackerRank Certifications](#)
- [Certified Web Professional E-Commerce](#)
- [Data Science from Yhills](#)
- [National Engineering Olympiad](#)
